Description: This report provides an overview of how many times each agency responded to something within the jurisdiction. This includes responding to something with the fire department, responding to something with the police, an assault may have two KCSO units responding, one KOPS unit, and a WMUOPS unit. This would generate one call tally for each agency. Likewise, a single unit traffic stop by MSP would generate a single tally for MSP. This report includes all Law Enforcement, EMS, and Fire disciplines. Note: ATIS, BOIs, and other administrative events are excluded.
