Description: This report provides an overview of how many times each agency responded to something within the county. The report is broken down by agency, primary, but simply shows activity within the area. For instance, an assault may have two KCSO units responding, one KOPS unit, and a WMU/DPS unit. This would generate one call tally for each agency. Likewise, a single unit traffic stop by MSP would generate a single tally for MSP. This report includes all Law Enforcement, EMS, and fire events are included. A1's, B0's, and other administrative events are excluded.
